# UNION UNIVERSITY

Is located in Murfreesboro, a handsome, thriving, and healthy village, the county seat of Rutherford county, in the center of one of the finest regions in the State; and, from the elevated character of the inhabitants for intelligence and morality, it is remarkably adapted to the location of a literary institution of high order.

It is accessible in every direction by good turnpike roads. The great South-Western rail road from Nashville to Chattanooga is in rapid progress, and cars are daily passing between this place and Nashville.

The University buildings are situated nearly a mile from the public square on an extensive and beautiful campus, commanding a splendid view of the adjacent country. Valuable apparatus in the departments of Natural Philosophy and Chemistry, also well selected cabinets in Mineralogy and Geology belong to the University. The Library contains a number of choice volumes. The Literary Societies have also libraries of their own. A number of important additions have been made during the past year, to the University Library and Cabinet, and to the Libraries of the Calliopean and Apollonean Literary Societies.

## COLLEGIATE DEPARTMENT.

Candidates for the Freshmen Class are required to be fourteen years of age, thoroughly versed in the studies of the Preparatory Department, furnished with testimonials of good moral character, and if from another Institution, with certificates of their standing from the President of the Faculty. For admission into a higher class, every student, in addition to the above, is examined on all the studies previously pursued by the class which he wishes to enter.

Students can not enter later than the second term of the senior year.

It is desirable that those who intend graduating at this in-

stitution should enter at least the Freshmen Class, if not the Preparatory Department, rather than prepare themselves elsewhere. If the Faculty are to be held accountable for the scholarship of the students, they would also seek the honor, and share the responsibility of laying a foundation for that permanent superstructure—A THOROUGH EDUCATION.

Nor is it less desirable that students should be well *drilled* in the preparatory studies. All experience has shown that no one loves a study he can not understand. Loss of interest, discouragement, idleness, and all the temptations attendant thereon, follow in rapid succession; and what at first seemed a matter of no importance, decides the weal or wo of many a noble youth. No parent or guardian may lightly disregard this consideration.

## ENGLISH AND SCIENTIFIC COURSE.

The present wants of the South and West seem to require that the University should furnish facilities for study to such young men as have not time, or may not find it convenient to pursue a Classical course, but who wish to secure a better English and Scientific education than can be obtained in our Academies.

For the accommodation of such, a course, to embrace a period of three years, has been prescribed, which, when they shall have satisfactorily finished, they will be entitled to a certificate by the President of the University.

The requirements as to moral character and tuition, are the same as in the regular College course.

Any student in this department may pursue such studies as he may select, with the regular class, provided he has three recitations each day.

## TERMS AND VACATIONS.

The Collegiate year is divided into three terms of fourteen weeks each.

The first term commences on the third Wednesday in September.

The second term commences on the first Wednesday in January.

The third term commences on the second Wednesday in April.

Commencement day is on the third Wednesday in July.

There are two vacations during each year.

The first vacation is from the third Wednesday in July to the third Wednesday in September.

The second vacation is from the fourth Wednesday in December, to the first Wednesday in January.

## EXAMINATIONS.

There are two examinations during each Collegiate year.

The first is at the close of the first term; the second at the close of the third term, when the students are examined upon all the studies pursued during the terms.

The examinations are rigid, and, in no instance, will a student be suffered to advance to a higher class unless it shall appear to the Faculty and Examining Committee that, by diligent and successful application he has entitled himself to such promotion.

## MERIT ROLL.

A daily journal is kept of the character of the recitations of each student during the term; from which circulars are made out and sent to his parent or guardian, exhibiting the progress made in his studies, his absence from recitations, and other marks the Faculty may deem useful and expedient.

## RESIDENCE AND DISCIPLINE.

According to the organization of Union University, the students do not board in Commons, (a plan productive of much evil,) but in private families, where they observe the courtesies of life, enjoy a parental supervision, and in case of sickness receive proper attention.

The discipline of the Institution is designed to partake both of a moral and parental character. It is intended, by mild but firm treatment, and by appealing to the better feelings of the heart, to secure attention to study, a correct deportment, and the cultivation of a taste for intellectual pursuits and virtuous habits. Should it be found that a student is not restrained by such influence, the Faculty will deem

that they have discharged their duty toward him, and he will be immediately returned to his parent or guardian.

## EXPENSES.

The tuition fees will, in every instance, be required in advance, at the opening of the first and second terms.

| | |
|---|---|
| Preparatory department, - | $6, $8 and 12 per term. |
| Freshmen and Sophomore, - - - - - - | 14 " |
| Junior and Senior, - - - - - - - - | 17.50 " |

Young men of all denominations having the Ministry in view, and bearing a recommendation from their Churches, are admitted free of charge for tuition.

Good boarding can be had in private families where every thing is furnished at $9 per month.

☞ It is earnestly desired that Parents and Guardians, sending their sons and wards to this Institution, should select some one of the Faculty as a *patron*, to whom the funds intended for defraying their expenses should be entrusted. No charge will be made for disbursing the funds of the student as his wants may require.
